EDUCATION

Nirma University

Bachelor of Technology in Computer Science and Engineering(7th Sem)

Expected Graduation: May 2027 | Current CGPA: 8.35

Ahmedabad, Gujarat, India

August 2023 – May 2027

TECHNICAL SKILLS

Languages: C++, JavaScript, Python, Java, HTML, CSS, SQL, Shell script

Frameworks & Libraries: React.js, Node.js, Express.js, Socket.IO, MongoDB, RESTful APIs

Tools & Technologies: Git, GitHub, VS Code, Postman

Core Competencies: Data Structures & Algorithms, OS, OOPS, Machine Learning, Full Stack Development, Problem Solving

PROJECTS

ShushrutAI – AI-Native Dermatology Diagnostic Platform

[Source Code](#)

React, Express, FastAPI, Google Gemini 2.0, Firebase

- Built a multi-agent AI pipeline using Gemini 2.0 for skin lesion analysis and automate clinical reporting
- Developed a secure practitioner dashboard for patient management and real-time diagnosis previews
- Implemented a context-aware medical chatbot delivering actionable insights from historical cases

FinAgent – AI-Powered Financial Automation Platform

[Source Code](#)

FastAPI, MERN Stack, LLMs, WebSockets, MongoDB

- Built an agentic AI system to automate financial workflows including payments, transfers, and investment operations
- Integrated LLM-based intent detection and decision orchestration with human-in-the-loop security controls
- Developed real-time transaction handling using WebSockets for instant updates and seamless user experience
- Designed scalable backend services with FastAPI and MongoDB for secure and efficient financial data management

InnoMate – Team Collaboration Platform

[Source Code](#)

MERN Stack, JWT, MongoDB, REST API, Zustand

- Built a platform for idea sharing, team formation, and project collaboration with secure authentication
- Implemented JWT auth, role-based access, and personalized feeds
- Designed scalable REST APIs and state management with Zustand for modular frontend architecture

ACHIEVEMENTS

- **HackNUthon 6.0 Winner (Reve Soils Track):** Led a multidisciplinary team to Third place at Nirma University by building an AI-driven skin disease classification (Mar 2025)
- **Hackamined 2026 – Paperpal Track Runner-Up:** Built **DocLing AI**, a document intelligence system converting DOCX to APA, IEEE, Vancouver, MLA, and Chicago formats with automatic LaTeX generation (2026)
- **IIT Bombay TechFest – Financial Agent Hackathon:** Selected among the **Top 25 teams nationwide** for developing an agentic AI-based financial automation platform (Dec 2025)
- **INSTINCT Hackathon:** Ranked in **Top 5 teams** for developing an AI-based predictive maintenance system for smart meters using telemetry data analytics (March 2026)

CERTIFICATIONS

- Certified in full-stack web dev by Dr. Angela Yu on Udemy.
- Currently pursuing Krish Naik's course on Deep Learning and NLP on Udemy.
- Certified in The Python Bootcamp by Dr. Angela Yu on Udemy.
- AWS Certified Cloud Practitioner (In Progress)
- Certified in Cybersecurity and Ethical Hacking from Rinex Org. in association with Skill India.
